React • JavaScript • Node.js • Git • Github • CSS
Styled Components • React Query • Semantic HTML5 • Next.js •
Python • Figma • Photoshop • Illustrator

CODE EXAMPLE

Guess The BPM: <https://www.guess-the-bpm.com/>

A game in which the user reproduces a song, and tries to guess its beats per minute by taping a button rhythmically.

TRAINING

COURSES

* Epic React by Kent C. Dodds (19h.)

This course starts with the basics of React, showing how the tool manipulates the DOM. The course focuses on React patterns, performance and testing, among others. I consider it to be a complex and extensive course that offers advanced React skills.

* CSS for JavaScript Developers by Josh W. Comeau(+40h.)

This course teaches how CSS works behind the scenes. The teacher offers a variety of interactive exercises and projects that challenges the students for better understanding of the materials. It has a huge agenda, from the basics to the most complex skills of CSS.

* React Query Course by ui.dev (20h.)

* The Complete JavaScript Course 2022: From Zero to Expert! by Jonas Schmedtmann(69h.)

The course begins with the basics of Javascript, emphasizing the internal functioning of the language. The teacher delivers extensive theory for a complete understanding of the web development process. It also has a lot of great challenges and projects which solidify the contents learned in the course.

* Build Responsive Real-World Websites with HTML and CSS by Jonas Schmedtmann(37h.)

PROFESSIONAL BACKGROUND

I am a Front-End Developer that strives to offer the best UX possible with clean code and professionalism. My professional profile connects my knowledge of web development with a design and art background provided by a History of Art degree.
