MARIA BONETE: Front-End Developer

https://www.linkedin.com/in/maria-bonete/ | bonetesalmeron@gmail.com | https://github.com/mbonete

I am a Front-End Developer that strives to offer the best UX possible with clean code and professionalism. My professional profile connects my knowledge of web development with a design and art background provided by a History of Art degree.

Portfolio: https://maria-bonete-portfolio.netlify.app/

Code example:

- Guess The BPM (https://www.guess-the-bpm.com/). A game in which the user reproduces a song, and tries to guess its beats per minute by taping a button rhythmically. Source: https://github.com/mbonete/guess-the-bpm

Keywords:

React • JavaScript (including modern features) • Node.js tooling • Git • Github • CSS

Styled Components • Semantic HTML5 • Next.js • Python • Figma • Photoshop • Illustrator

Training:

- Epic React by Kent C. Dodds
  - 19 total hours.
  - I can provide certificates for the following sections:
    - React Fundamentals, React Hooks, Advanced React Hooks, Advanced React Patterns, React Performance.
  - This course starts with the basics of React and shows you how the tool manipulates the DOM. In addition to fundamental knowledge, the course focuses on React patterns, performance and testing, among others. I consider it to be a complex and extensive course that offers advanced skills.
- CSS for JavaScript Developers by Josh W. Comeau (70% completed);
  - More than 40 hours
  - This course teaches you how CSS works behind the scenes, helping you to develop good practices and building robust interfaces. The teacher offers a variety of interactive exercises and projects that challenges the students for better understanding of the materials. It has a huge agenda, from the basics to the most complex skills of CSS.

- The Complete JavaScript Course 2022: From Zero to Expert! by Jonas Schmedtmann
  - 69 total hours
  - Certificate: https://udemy-certificate.s3.amazonaws.com/image/UC-7aa40fc8-e775-475c-bcc8-8d7c3a4d5223.jpg?v=1643479200000
  - I chose this course because Jonas Schmedtmann is a highly qualified developer and an excellent teacher. The course begins with the basics of Javascript, emphasizing the internal functioning of the language. The teacher not only teaches practical programming, but he delivers extensive theory for a complete understanding of the web development process. It also has a lot of great challenges and projects which solidify the contents learned in the course.
