TRAINING

✳ The Joy of React by Josh W. Comeau(40h.)

This course offers both theorical and practical knowledge about React. The teacher provides an extensive training in hooks, performance and accessibility. It is highly interactive, with a lot of projetcs and challenges.

✳ Epic React by Kent C. Dodds (19h.)

This course starts with the basics of React, showing how the tool manipulates the DOM. The course focuses on React patterns, performance and testing, among others. I consider it to be a complex and extensive course that offers advanced React skills.

✳ CSS for JavaScript Developers by Josh W. Comeau(+40h.)

This course teaches how CSS works behind the scenes. The teacher offers a variety of interactive exercises and projects that challenges the students for better understanding of the materials. It has a huge agenda, from the basics to the most complex skills of CSS.
